Jodi -

I am unable to attend the 6/29 meeting

I think that the latest draft looks great with one exception. I suggest deleting subd. 9 H. that permits candidates to appear before a spender's members, employee or shareholders because any appearance by a candidate automatically promotes his or her election no matter what the spender or candidate says to the contrary. This provision would be easily susceptible to abuse with a claim that there was no mention of an election so that there was no coordination. But, in fact, the audience and the spender would be encouraged to fund the candidate. Coordination means circumventing contribution limits. Item H. permits that.

Thanks for consideration of my comments.

George
