Contribution Limits for State Candidates

- Contribution limits apply to two-year periods referred to as segments
- There are election and non-election segments for candidates whose election cycle is longer than two years

Return of Contribution

- If contribution was returned more than 90 days after deposit, report both the contribution and the amount returned

Understanding In-Kind Contributions

- In-kind contributions are donations of goods or services other than money
- A committee volunteer's time is not an in-kind donation
- In-kind are recorded and reported ONLY if over \$20
 - No de minimis exception for corporate contributions

Reporting In-Kind Contributions

- In-kind contributions are recorded at fair market value
- An in-kind contribution is also an in-kind expenditure in the same reporting period
- If a contributor pays a processing fee to a contribution processor and the fee exceeds \$20, that amount must be recorded as an in-kind contribution

Approved Expenditures

- An approved expenditure is an expenditure made on behalf of a candidate with the consent of, or in coordination with, the candidate's committee
- An approved expenditure **is always** a donation in kind and applies to the candidate's contribution limit and may count towards the campaign spending limit
- The candidate's committee limits the dollar value of an approved expenditure in advance and in writing
- Keep a copy for your committee records

Cost of Using Car

- A volunteer or candidate using a personal car for campaign purposes is not an in-kind contribution
- If you choose to reimburse, the rate for 2025 is 70 cents per mile

The background of the slide is a close-up photograph of several coins. In the foreground, there are several copper-colored coins, likely pennies, some showing the date '1993'. Behind them, there are larger silver-colored coins, possibly quarters or dimes, with some showing the words 'LIBERTY' and 'IN GOD WE TRUST'. The coins are scattered and slightly out of focus, creating a textured, financial-themed background.

Loans

- Loans cannot be made from committee funds for personal reasons
- Loans count towards contribution limits unless made by a financial institution with no endorser or cosigner
- Loans to candidates require a written agreement
- If a loan is forgiven it is considered a contribution from the lender for the year the original loan was made

Auctions

- Items cannot be donated by corporations
- The value of items donated to candidate committees counts against contribution limits
- Fair-market value of a donated item is reported as an in-kind contribution if the value exceeds \$20 and each contribution results in an equivalent in-kind expenditure
- The full amount paid by a winning bidder should be reported as a cash contribution
- Find more information at:
cfb.mn.gov/pdf/issues/Conducting_auctions.pdf

Sales for Fundraising Purposes

- A raffle involves participants providing something of value, such as money, in order to be eligible to win a prize
- If no payment or other consideration is given by participants, it is a drawing
- Proceeds from raffles and other types of gambling may not be used for political purposes or to make political contributions
- Find more information at:
cfb.mn.gov/pdf/issues/raffles.pdf

Expenditures

Expenditures

- Expenditures are reportable when an obligation to pay is incurred
- Report expenditure as an unpaid bill if not paid or no invoice at time of report
- Remember that an in-kind contribution is an in-kind expenditure during same report period

 - Higher limit during two-year election segment
 - Lower limit in two-year non-election segment
- A list of 2025 – 2026 spending and contribution limits is available at cfb.mn.gov/pdf/camfin/contrib_limits.pdf
